## Flex Matrix MK II

### High Speed HDMI cable with ethernet, halogen-free

High quality with sensational price performance ratio. This cable has an additional data channel (ethernet channel) and enables AV components, AV or media receivers for example, to be linked up to the Internet without the need of extra network cable. This groundbreaking High-Speed-HDMI® cable can be used in tight spaces due to its new kind of connectors. Due to the plug that can be removed 180 degrees, it offers amazing flexibility. Silver-plated OFC copper wires and the complex, 4-fold shielding enable interference-free full HD transfer of all current HDMI® formats right up to the most recent version.
